

Chartered Organization Night for Scouting

Purpose: Many of our chartered organizations, especially religious organizations, have youth and families that should be invited to join Scouting. Often, these boys are invited to school night programs for units that serve other organizations, or in light of the growing home school population, never received an invitation. The Chartered Organization Night for Scouting will help these families get a head start to join “their” pack or troop.

Plan: Prior to the scheduled school night, designate a night for chartered organizations to invite prospective Scouts and parents from among the membership to join their Scouting unit(s). This meeting should be held at the chartered organization’s facility.

Schedule: These things need to be done on or by:

June: District membership committee member(s) contact charter organization representatives to determine which organizations wish to participate.

July: Plans are discussed at District membership committee meeting.

August: Contact Unit Leaders of packs and troops of organization’s unit(s) and secure personnel to assist with chartered organization night.

Secure support of executive officer, through the charter organization representative, regarding meeting place and distribution of promotional materials.

Deliver promotional materials (flyers, posters, bulletin inserts, yard signs, etc.) to chartered organization for distribution to Scout aged members and families, and to other members of the organization.

District School Night Team conduct rallies, where appropriate and possible, to invite boys to the chartered organization night and/or school night serving that organization’s units.

Follow School Night for Scouting script to conduct the Chartered Organization Night for Scouting.

Note: The Church of Jesus Christ of Latter Day Saints (LDS Church) do not run the Tiger Cub program so district school night teams would not need a Tiger Cub Den Organizer.
